

2023 Blue Cross and Blue Shield Service Benefit Plan - FEP Blue Focus**Section 5(a). Medical Services and Supplies Provided by Physicians and Other Healthcare Professionals****Maternity Care**

Note: We state whether or not the calendar year deductible applies for each benefit listed in this section.

Benefit Description**Maternity Care**

We encourage you to notify us of your pregnancy during the first trimester, see page [24](#).

Maternity (obstetrical) care including related conditions resulting in childbirth or miscarriage, such as:

- Prenatal care (including ultrasound, laboratory, and diagnostic tests)
- Delivery
- Postpartum care

Note: We cover up to 8 visits per year in full to treat depression associated with pregnancy (i.e., depression during pregnancy, postpartum depression, or both) when you use a Preferred provider. See Section 5(e) for our coverage and benefits for additional mental health services.

- Assistant surgeons/surgical assistance if required because of the complexity of the delivery
- Anesthesia (including acupuncture) when requested by the attending physician and performed by a certified registered nurse anesthetist (CRNA) or a physician other than the operating physician (surgeon) or the assistant
- Tocolytic therapy and related services when provided on an inpatient basis during a covered hospital admission or during a covered observation stay
- Breastfeeding education and individual coaching on breastfeeding by healthcare providers such as physicians, physician assistants, midwives, nurse practitioners/clinical specialists, and lactation consultants
Note: See below for our coverage of breast pump kits.
- Home nursing visits (skilled), subject to visit limitation stated on page [54](#)

Notes:

- See pages [41](#) and [44](#) for our coverage of nutritional counseling.
- Maternity care benefits are not provided for prescription drugs required during pregnancy, except as recommended under the Affordable Care Act. See page [96](#) for more information. See Section 5(f) for other prescription drug coverage.

Here are some things to keep in mind:

- You do not need to precertify your delivery; see page [26](#) for other circumstances, such as extended stays for you or your newborn.
- You may remain in the hospital up to 48 hours after a vaginal delivery and 96 hours after a cesarean delivery. We will cover an extended stay if medically necessary.
- We cover routine nursery care of the newborn when performed during the covered portion of the mother's maternity stay and billed by the facility. We cover other care of a newborn who requires professional services or non-routine treatment, only if we cover the newborn under a Self Plus One or Self and Family enrollment. Surgical benefits apply to circumcision when billed by a professional provider for a male newborn.
- Hospital services are listed in Section 5(c) and Surgical benefits are in Section 5(b).
- See page [132](#) for our payment for inpatient stays resulting from an emergency delivery at a hospital or other facility not contracted with your Local Plan.
- When a newborn requires definitive treatment during or after the mother's confinement, the newborn is considered a patient in their own right. Regular medical or surgical benefits apply rather than maternity benefits.
- See page [57](#) for our payment levels for circumcision.
